Open Energy Corporation Completes Strategic Planning Process

Company Appoints Tom Wolfe as SVP of Engineering & Development; David Field as SVP of Business Development; Jeff Stein Promoted to VP of Finance

SOLANA BEACH, Calif.--(BUSINESS WIRE) Monday January 8, 2007--Open Energy Corporation (OTCBB:OEGY - News), a renewable energy company focused on the development of solar technologies that produce renewable energy, fresh water and related resources, today announced that they have completed a professional strategic planning process and are deploying senior personnel in order to more effectively achieve the Company's business objectives.

David Saltman, President and CEO of Open Energy Corporation, stated: "Many young companies, particularly those who have grown through mergers and acquisitions, do not take the time to focus and align their teams. We have recently completed this empowering process and have structured our organization to take advantage of the talented individuals we have been fortunate to attract."

Saltman continued, "Tom Wolfe, founder of WaterEye, is now Senior Vice President of Engineering and Development for our company. He has designed and built membrane filtration, evaporation, crystallization and thermal systems around the world, and has the skills and expertise to head the commercialization of our SunCone™ CSP water purification technology." Mr. Wolfe was formerly Director of R&D for Resources Conservation Company, now a division of GE Water. He is the patent holder of WaterEye's remote monitoring software, which is currently being adapted to monitor Open Energy's photovoltaic installations. He holds an engineering degree from the University of California at San Diego.

Open Energy also announced the hiring of David Field as Senior Vice President of Business Development. Previously, Mr. Field was founder and CEO of Clarus Energy Partners, a leading developer and operator of distributed generation power systems, which was recently acquired by Hunt Power. He was also co-founder of Omaha-based Kiewit Bio-Fuels. In addition to his experience in renewable energy, Mr. Field has an extensive background in water infrastructure development with companies that include Bechtel and Poseidon Resources, and in corporate finance with Citicorp. Mr. Field holds a MBA in International Management from Thunderbird University.

The Company also announced that Jeff Stein has been promoted to Vice President of Finance from his former position of Financial Reporting Manager. Mr. Stein has 25 years of corporate accounting and management experience in accounting, systems development, public reporting, and Sarbanes-Oxley compliance, including audit experience with PriceWaterhouse. He is a licensed Certified Public Accountant and holds a Masters of Business Administration from the

London School of Economics in International Finance. Cheryl Bostater, CFO of Open Energy, stated, "In his newly expanded role, Jeff will be drafting our 10Q's and 10K's, heading our annual budget process, and implementing 404 policies and procedures in preparation for a potential future listing on the NASDAQ or American Exchange."

About Open Energy

Open Energy Corporation (OTCBB: OEGY) focuses on the development and commercialization of renewable energy products and technologies for a wide range of applications including electrical and thermal power production and water desalination. The Company pursues these objectives through technology innovation, acquisitions, strategic partnerships and other business strategies. The company's mission is to enhance life by harnessing the power of the sun.
