Open Energy to Present at The 9th Annual ICR XChange Conference

Solana Beach, Calif., January 4, 2007 – Open Energy Corp. (OTC BB: OEGY) announced today that David Saltman, the Company's President and Chief Executive Officer, will be presenting at the 9th Annual ICR XChange Conference to be held on January 10-11, 2007, at the St. Regis Monarch Beach Resort in Dana Point, CA.

Open Energy's presentation is scheduled for 11:50 a.m. PST, Thursday, January 11, 2007. The presentation will be webcast live and archived online on the Investor section of the Company's website at www.openenergycorp.com.

About Open Energy

Open Energy Corporation (OTC BB: OEGY) is a renewable energy (RE) company focused on the development and commercialization of a portfolio of technologies capable of delivering low-risk, cost-competitive electricity, fresh water and related commodities on a global basis. Open Energy offers building-integrated photovoltaic (PV) roofing materials for commercial, industrial, and residential markets. Marketed under the trade name SolarSave®, the product line includes roofing membranes, roofing tiles, custom architectural PV glass, and balance of systems equipment such as inverters, combiners, and accessories. The Company also holds an exclusive, worldwide license to a solar thermal technology called SunCone™ CSP (Concentrating Solar Power), which is currently being developed to produce electricity and potable water using only the power of the sun. The company's mission is to enhance life by harnessing the power of the sun.

Safe Harbor for Forward Looking Statements

Except for statements of historical fact, the information presented herein constitutes forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Such forward-looking statements involve known and unknown risks, uncertainties and other factors, which may cause the actual results, performance or achievements of the company to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. Such factors include general economic and business conditions, customer demand for its products, the Company's ability to scale up manufacturing to meet demand, and other factors over which Open Energy Corporation has little or no control.
